

PROFESSIONAL SUMMARY

Passionate and skilled Full Stack Web Developer with over a year of experience in designing and implementing dynamic and responsive web applications. Proficient in both front-end and back-end development, with a strong ability to translate client requirements into efficient and user-friendly interfaces. Adept at problem-solving and a dedicated team player, able to work collaboratively and independently. Seeking an opportunity to contribute my expertise and make a meaningful impact as part of a team.

WORK EXPERIENCE - WEB CONSULTANT

JAN 2023 - JUL 2023

Contract Web Developer, Detroit Bridal Shower Project (Non-Profit Organization), Detroit, MI

HTML | CSS | JavaScript | Node.js | Express.js | Azure Cosmos | SendGrid API

- Developed a dynamic web application for the Detroit Bridal Shower Project.
- Streamlined the community contribution process through:
 - Collaborating with the Detroit Bridal Shower Project team to analyze business requirements and develop innovative solutions to support the organization's mission and goals.
 - Enabled users to add newly engaged couples to be featured in the newsletter.
 - Introduced a user-friendly interface for seamless newsletter subscription, allowing users to stay informed on the latest updates.
 - Automated newsletter emails to keep the community informed.
- Admin Page:
 - Secured administrator access with authentication protocols, implementing password hashing for extra security.
 - Implemented real-time text message notifications for administrators, ensuring prompt awareness of new couple submissions.
 - Database Management: Empowered administrators with CRUD operations for efficient modification of the database.
 - Customized email functionality for administrators.

JUN 2023 - DEC 2023

Contract Web Developer, AyzerTech (Public adjusting Firm), Detroit, MI

HTML | CSS | Sass | JavaScript | jQuery

- Developed a visually appealing and informative website for a reputable public adjusting company, showcasing expertise in insurance claims.
- Ensured seamless browsing with an intuitive user interface and modern design, integrating a contact form for easy quote requests via email.
- Demonstrated proficiency in HTML, CSS, and JavaScript to create engaging user experiences that convey the company's value proposition.

JAN 2024 - PRESENT

Contract Web Developer, SBD 1 Oak (Real Estate Company), New York City

- Collaborated closely with the previous developer to understand the existing structure and make seamless updates.
- Revamped the website to enhance its visual appeal, user interface, and overall user experience.
- Implemented hosting capabilities for the website, ensuring optimal performance and reliability.
- Currently responsible for ongoing maintenance, updates, and any future enhancements to the website.
- Develop innovative and interactive web features to attract potential real estate clients and improve user engagement on the company's website.
